

AMBU-CARE
Benefits and Coverage
For Only \$40.00 per Year!

AMR's Ambu-Care Membership Program saves you and your loved ones money on the cost of ambulance and wheelchair van transports.

- One membership covers you, your spouse, and anyone else claimed on your taxes as dependents.
- You'll have **Zero** out of pocket cost for **medically necessary** ambulance (stretcher) transportation. We bill directly to your insurance carriers for services rendered by AMR. Payment by your insurance company is accepted as payment in full for medically necessary ambulance transportation.

What does "medically necessary" mean?

Medical necessity is established when the patient's condition is such that the use of any other method of transportation other than ambulance (stretcher) should not be used.

- You'll receive a 20% discount on AMR's wheelchair van service and AMR services that are not medically necessary, not covered by insurance, or if you have no insurance at all. **Note: Insurance does not cover wheelchair van transportation.**
- Spouses are always covered even if one is at home and the other is residing in a healthcare facility.
- There are no restrictions on how often you use your membership.
- Ambu-Care members receive personal assistance with questions regarding billing by contacting our local office at 616-459-8228 or toll-free at 1-800-560-9318 option 5.
- Membership sign-up is now available online at www.amr-westmi.com

- No need to wait for open enrollment, sign up year 'round and receive coverage for one full year. (Not available from other ambulance service providers!) For example, if you sign up for a membership on September 15th, your membership is good through September 15th of the following year. (Your membership goes into effect two days after payment is received.)

Memberships make great gifts for family members of **ALL** ages! Accidents happen! A trip to the hospital can happen to anyone at any time—children, adolescents, and adults. Young families can benefit from an Ambu-Care membership too!

- Sports-related injuries
- Falls from biking, skate boarding, skiing, etc.
- A sick child
- Mom's-to-be

Tell your family! Tell your friends! AMR's Ambu-Care Membership Program can save you money on that unexpected ambulance transport!
